1. Customer Support Associate

About the Role:

We are looking for enthusiastic and customer-focused individuals to join our Customer Support team. As a Customer Support Associate, you will be the first point of contact for our customers, helping them with queries, resolving issues, and ensuring a positive customer experience.

Roles and Responsibilities:

1. Customer Interaction:

- Handle incoming customer queries via phone, email, chat, or social media.
- Respond promptly and professionally to ensure customer satisfaction.

2. Issue Resolution:

- Troubleshoot and resolve product or service-related issues.
- Provide step-by-step guidance or escalate complex cases to senior support or relevant departments.

3. Information Management:

- Maintain accurate records of customer interactions, transactions, and feedback in the CRM system.
- Update customer accounts and log service requests accurately.

4. Product/Service Knowledge:

- Stay up to date on company products, services, features, and policies.
- Effectively explain features, benefits, and usage to customers.

5. Customer Feedback:

- Collect and relay customer feedback to improve products, services, or support processes.
- Identify recurring issues and suggest process improvements.

6. Follow-Up:

- Conduct timely follow-ups to ensure issue resolution and customer satisfaction.
- Close service tickets only after verifying successful resolution.

7. Adaptability & Learning:

- Adapt to changing product features, new tools, and company updates.
- Continuously learn and improve customer service skills.

Required Skills:

- Excellent verbal and written communication skills.
- Strong problem-solving abilities and attention to detail.
- Ability to multitask and stay organized in a fast-paced environment.
- Empathy, patience, and a customer-first attitude.

2. Business Development Associate

About the Role:

We are looking for a resilient, empathic grads to contribute to the growth of our company. Business Development Associates are responsible for finding and retaining clients, encouraging extant clients to purchase added products or features, and remaining abreast of changes in consumption.

Roles and Responsibilities:

1. Lead Generation:

- Research potential clients and market segments.
- Use tools like LinkedIn, CRM software, or lead databases to identify and qualify leads.
- Conduct cold outreach via emails, calls, or social media.

2. Prospecting & Outreach:

- Initiate contact with potential clients to present company offerings.
- Schedule meetings or product demos for senior sales or account managers.

3. Market Research:

- Analyze industry trends, competitor offerings, and customer needs.
- Provide insights to marketing and product teams to refine strategies.

4. Pitching Products/Services:

- Present the value proposition clearly and effectively to prospects.
- Customize communication based on client needs and pain points.

5. Sales Collaboration:

- Work closely with sales, marketing, and product teams to align on goals and share feedback from the field.
- Support senior sales reps with proposal creation, demos, and follow-ups.

6. Meeting & Revenue Targets:

- Meet or exceed monthly/quarterly targets for lead generation and conversion.
- Contribute to the team's overall revenue objectives.

7. Follow-ups and Nurturing:

- Develop a lead nurturing strategy for long-term prospects.
- Stay in touch and build relationships that may lead to future deals.

Required Skills:

- Excellent communication and persuasive skills (verbal and written)
- Research and analytical abilities
- Self-motivated and goal-oriented
- Basic knowledge of sales funnels or CRM tools
- Ability to work independently and as part of a team
- Understanding of B2B or B2C sales.

3. Associate Business Analyst

About the Role:

As an Associate Business Analyst, you will be responsible for performing detailed requirements analysis, documenting processes, and performing some user acceptance testing. You'll also play a key role in communicating between internal departments and external parties, acting as a 'translator' where necessary to convey how information technology can support the client's needs.

Roles and Responsibilities:

1. Requirement Gathering:

- Interact with stakeholders to understand business objectives and needs.
- Assist in collecting and documenting detailed business and functional requirements.

2. Documentation & Reporting:

- Prepare clear and concise documentation such as Business Requirement Documents (BRD), Functional Specifications, and user stories.
- Maintain records of meetings, user feedback, and system changes.

3. Stakeholder Communication:

- Act as a liaison between business users and technical teams.
- Communicate clearly and regularly with internal teams about requirements, project updates, and feedback.

4. Solution Evaluation:

- Assist in evaluating proposed solutions to ensure they meet business requirements.
- Participate in user acceptance testing (UAT) and gather feedback.

5. Market & Competitor Research:

- Conduct basic industry research and competitor analysis to support business planning.
- Prepare reports summarizing key findings and implications.

6. Tools Knowledge:

- Exposure to tools like JIRA, Confluence, Trello, MS Office, SQL, Tableau, or Google sheets.

Required Skills:

- Strong analytical and problem-solving ability
- Good written and verbal communication skills
- Basic understanding of business workflows and systems
- Proficiency in MS Excel or Google Sheets
- Attention to detail and documentation skills
- Familiarity with Agile/Scrum methodologies
